Student Names

Teacher Name

**Challenge: What needs or challenges can you identify in your community? (Think about examples your teacher has shown you. Can you think of similar issues in your own community?)  
List all your group identifies**

**Solutions: What could your group realistically do to address these issues? (Remember, your group will be trying to solve the challenge you decide on. What can your realistically accomplish?) List all your group identifies**

**Resources: Are there people or groups that can help you? Think of people your family know or work with.)**

**Decide on a project. (This is the hard part. Decide on which challenge your group wants to work on. Make sure everyone in your group gets a chance to voice their opinion.)**

**Be flexible (As you work on your project and interact with members of the community you may find that your challenge and solutions may change. Don't worry, that is part of the process.)**
